Mr. Eric Mandelsohn
627 Commercial Street
San Francisco, California.

Dear Mr. Mandelsohn:

The following is my understanding of our arrangements for the landscape work at the Russell residence at Washington and Maple Streets, in San Francisco. *you*

We will *the architect*

1. Collaborate with you on all points affecting the site layout.
2. Present preliminary studies of the garden scheme.
3. When scheme is approved, prepare staking plan and full information on garden paving and grades.
4. Prepare a planting plan. *the architect*
5. Cooperate with you in your preparation of drawings, specifications and supervision of the garden construction work (walls, paving, drainage, etc.)
6. Personally supervise the selection and placement of plants and supervise soil preparation.
7. Make all necessary trips to the site to accomplish the work outlined above.

Our compensation for this work will be -

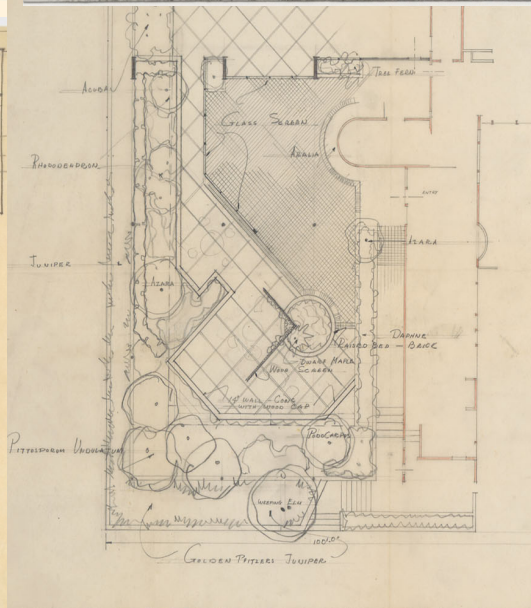

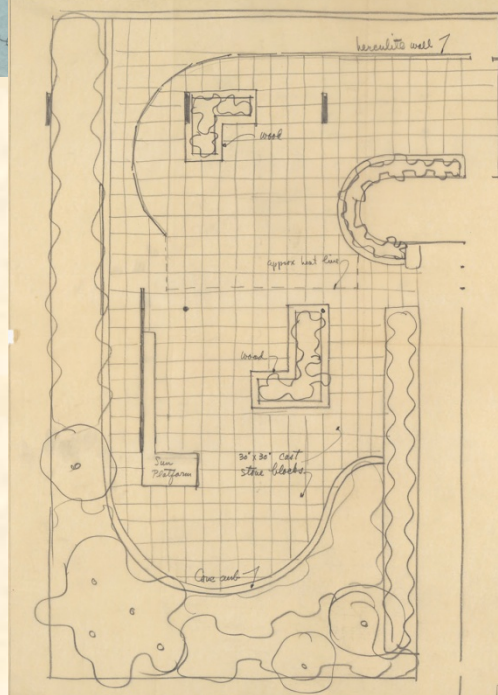

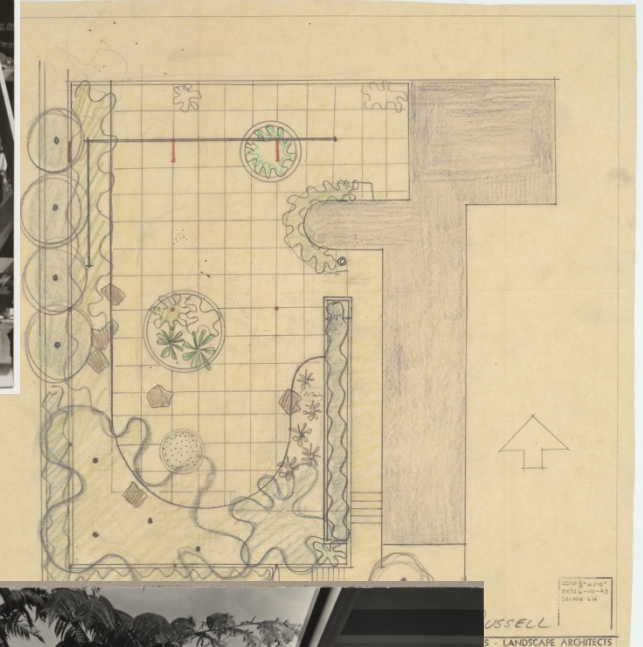

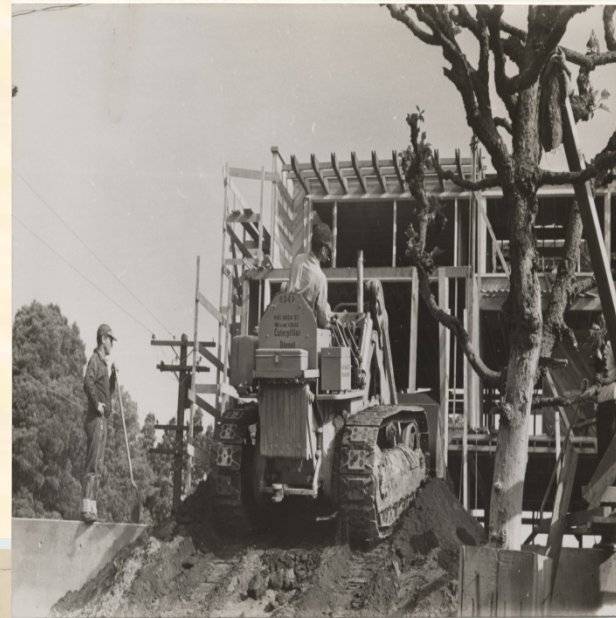

1. A flat fee of \$800.00, payable as follows:

Retainer	\$200.00
Approved preliminary plans	400.00
Approved working drawings	200.00
2. Planting plans, selection and placement of plants, supervisions, 10% of the cost of the planting and soil preparation work.

work done by Russell

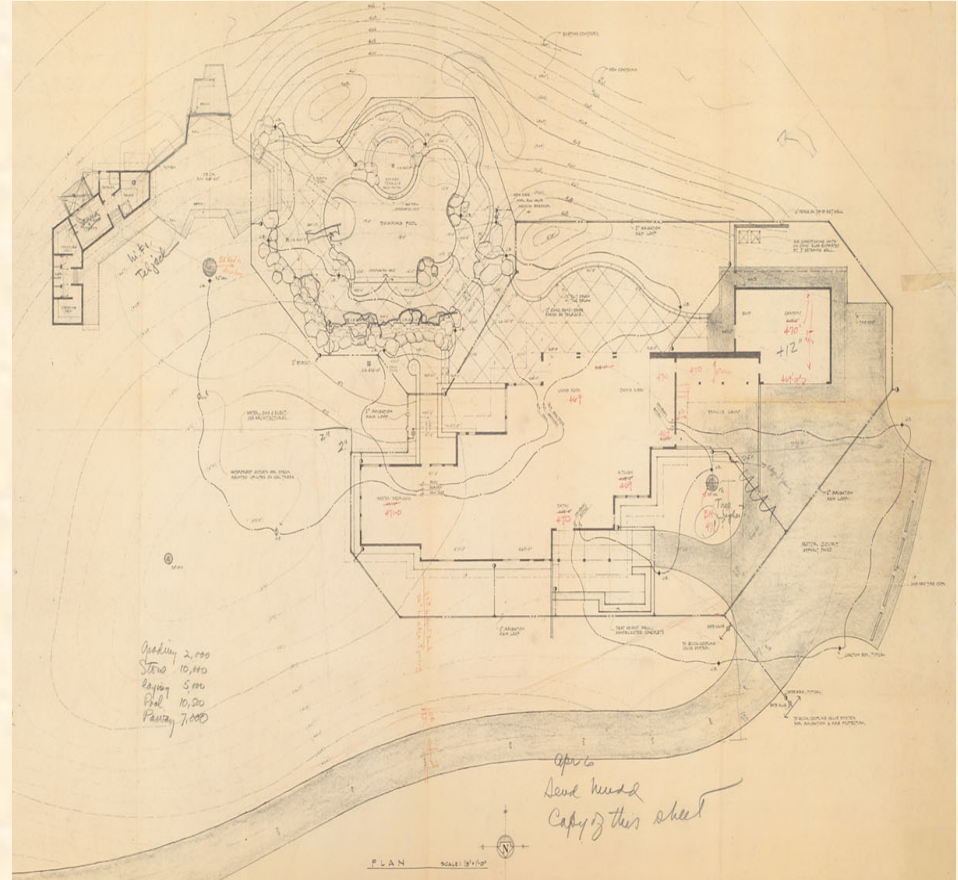

Please let me know if there are any questions.

No Japanese word for garden
an enclosure or dwelling

Man in Nature

A unity which we talk
about but have not
achieved. Frank Lloyd Wright
felt it and has been
talking about it ever since.

Composing from the
distant to the near

opposite of our approach.

Integrated design = unity

Subordination of detail
Mastery over materials + climate
maintenance.

Wrong notions about
Japan. Florence Swift
"Everything is small"
