

POWER TO THE PEOPLE

WHO ARE WE?

We are volunteers that donate our time, resources and knowledge to bring solar electricity to people living without electricity in the developing world.

WHAT DO WE DO?

Power to the People works with volunteers to install solar electric systems on schools and health clinics in Central America.

GET INVOLVED!

Become a volunteer in the Bay Area or travel with us to Nicaragua to install a solar system.

“VOLUNTOURISM”

Make a difference while
you're on vacation!

**POWER
TO THE
PEOPLE**

Power to the People leads groups of 8–12 people to Nicaragua to gain hands-on experience installing an off-grid solar system. The one week trip includes a 3–4 day installation plus a chance to see some of Nicaragua's most popular sites.

Travel with us to Nicaragua!
