RE: Highway Safety Improvement Program (HSIP) Cycle 8 – White Road – San Jose Vision Zero Priority Safety Corridor

Dear Ms. Fung and Members of the HSIP Review Committee:

SPUR is writing to support the City of San Jose's application to the Highway Safety Improvement Program for funds to develop the White Road – San Jose Vision Zero Priority Safety Corridor project.

Through research, education and advocacy, SPUR promotes good planning and good government in the San Francisco Bay Area. We have thousands of individual and business members in the San Francisco Bay Area and an office in downtown San Jose. SPUR supports making neighborhoods safer for walking, biking and transit use. The interventions proposed as part of the San Jose Vision Zero Priority Safety Corridor for White Road work towards this goal.

Additionally, this project aligns with the adopted Regional Transportation Plan, the State's Complete Streets Act of 2008, and regional priorities represented in the VTA Bicycle Expenditure Plan as well as VTA's recent Pedestrian Access to Transit Plan.

The White Road – San Jose Vision Zero Priority Safety Corridor between Penitencia Creek Road and Cunningham Avenue will improve safety by reducing vehicle speeds, minimizing vehicle conflicts, increasing pedestrian and bicyclist safety and visibility, and creating safer and more attractive pedestrian and bicycle facilities. Key interventions for the White Road – San Jose Vision Zero Priority Safety Corridor include the:

- Installation of new bike lanes for added bicyclist safety
- Upgrade of traffic signals to be more visible and responsive to pedestrians, bicyclists, and drivers
- Construction of pedestrian refuge islands

spur.org

These safety improvements will encourage pedestrian and bicycle access to key destinations within the project area including religious institutions, youth centers, schools, and parks. Additionally, safer connections to the many transit stops found within the project limits will allow pedestrians and bicyclists access to other places in the city and county.

With HSIP support, the City of San Jose can advance critical transportation safety improvements that otherwise would not be possible. SPUR supports the efforts of the City of San Jose on the White Road – San Jose Vision Zero Priority Safety Corridor project and encourages HSIP funds to be invested in this meaningful work.

Sincerely,
