Black early educators are paid on average $0.78 less per hour than their White peers.
We’ve heard from the workforce...

“We're having to pay out of pocket to obtain these higher degrees and we're not being compensated, even for some of us who are part of the public school system. In my case, we have a salary schedule, we have compensation, we have a decent package, but in over a decade, it hasn't been bargained. There hasn't been restructure and the cost of living keeps increasing and we can't even make a living. I have to make a decision if I'm going to pay my student loans or if I'm going to pay the mortgage or buy groceries for my family.”

-School district early educator, California

“I don't think that they're paying that much attention to what they're asking us to do. The fact that we are the lowest paid people on the planet or that some of us are older. I can’t afford to get COVID-19. I started thinking about writing my will the other day. I mean that's a serious step to take just because I don't want to be one of the hundred thousand people that died.”

-FCC Educator, California

“We are highly qualified educators, have the seniority, have the fidelity to the best practices; we're producing positive outcomes, but who's listening to us? Who's really doing something to take care of us? Who is going to take care of us? We take care of the children in this country by providing care, supervision, education and beyond. And who's going to take care of us? Who's listening to us? We're the backbone of the economy and we're the backbone of the educational system in early childhood, where the most critical brain development takes place... Enough is enough”.

-Center-based Educator, California
Impact of COVID-19 on CA ECE Programs

Between January 2020 and January 2021, California’s ECE system has seen a 33% decrease in the number of centers and a 14% decrease in FCC programs.

The American Rescue Plan: Recommendations for Addressing Early Educator Compensation & Supports

**Recommendation 1**
Ensure federal child care relief funds reach individual early care and education staff in the form of direct cash payments.

**Recommendation 2**
Ensure health coverage and guaranteed paid leave of at least two weeks for all staff working in regulated early care and education programs.

**Recommendation 3**
Adjust eligibility requirements for public safety net programs utilized by early childhood personnel until the period when all state ARPA funds related to child care are liquidated.

**Recommendation 4**
Prioritize equitable distribution of funding to programs located in communities with the most need, which have been impacted most acutely by this pandemic.

**Recommendation 5**
Improve systems administration and technical assistance to facilitate accessible, simple application processes.

**Recommendation 6**
Establish essential, yet simple data collection protocols to examine the utilization and impact of ARPA funding in order to inform future policies and resource allocation.

**Recommendation 7**
Prohibit the use of quality ratings as a determining factor for eligibility to receive ARPA funds or to condition levels of payment.
