

The Bay is Rising

The time to come together to *act* is now.

Sea level rise is no longer a distant threat and the San Francisco Bay Area stands to be one of the hardest hit places in North America. It's past time for us to get ready.

As we walk the dog along our favorite waterfront, the waves don't seem any taller. As we wait in traffic at the Bay Bridge toll plaza, the water level looks the same as ever. But the Bay has already started rising onto our highways and streets during storms. Another foot or two will seriously impact our homes, jobs, habitats, and safety. The San Francisco Bay Area has an enormous amount at stake—and an unprecedented opportunity to address these risks.

At risk of flooding in the next 40 years

28,000 socially vulnerable residents

13,000 existing housing units and another **70,000** new housing units

104,000 existing jobs and another **85,000** new jobs

20,000 acres of wetlands, lagoon and tidal marsh habitat

5 million daily highway vehicle trips

60,000 daily rail commuters

Impacts from flooding that could occur at 48" Total Water Level from the [ART Bay Area Regional Sea Level Rise Vulnerability and Adaptation Study](#). 48" TWL may occur between 2060 and 2100.

Why *shared* solutions?

- ▶ Sea level rise will **impact everyone** in the Bay Area, no matter where you live.
- ▶ A regional problem requires **regional solutions**.
- ▶ **Flooding know no boundaries** and doesn't care about jurisdictional lines.
- ▶ Solutions should **center on the most vulnerable people** and environments.
- ▶ Bay Adapt is building **regional consensus** to address our strengths and weaknesses, enabling us to respond faster, better and together.
- ▶ Only with **strong local and regional actions** can we ensure the safety and welfare of all the Bay Area.

The Joint Platform:

A regional strategy for a rising Bay

Bay Adapt established regional agreement on the actions necessary to protect the Bay Area's people and natural and built environments from sea level rise.

Bay Adapt is convened by the San Francisco Bay Conservation and Development Commission, a state agency, in partnership with a broad range of Bay Area leaders.

Through dozens of expert working groups, public forums, ten community and stakeholder focus groups, over 50 presentations, an environmental justice caucus, and led by a Leadership Advisory Group—hundreds of people from across the Bay came together to achieve a consensus-driven strategy and regional agreement on a path forward.

Rather than identifying specific projects, the Joint Platform lays out guiding principles and region-wide actions and tasks to achieve **faster, better, and more equitable adaptation** to a rising Bay. It will result in:

- **Reduced flood risk** for communities, businesses, infrastructure, and habitats.
- **Protection of natural areas and wildlife.**
- **Robust integration of adaptation into community-focused local plans.**
- **Recognition and equitable support for low income communities.**
- **Accelerated permitting and project construction.**
- **Technical assistance** for local governments.
- **More funding** for adaptation.

Guiding Principles

- ▶ Support socially vulnerable communities
- ▶ Put nature first whenever possible
- ▶ Solve interconnected problems at the same time
- ▶ Practice inclusive, community-led governance and decision-making
- ▶ Support existing efforts but plan for the long term
- ▶ Pick the right strategy for the right place at the right time

Working together as *one* region to preserve what we care about.

The Bay Area's cultural and environmental diversity is what makes it an incredible place to live. The impacts of sea level rise, and the resources necessary to address them, are unequal across the Bay Area. Healthy Bay ecosystems are inextricably linked to our quality of life — and are also our first line of defense from rising seas. This is why all nine actions in the Joint Platform emphasize achieving **equitable** outcomes to improve the lives of people, the quality of our **environment**, and a thriving **economy** for all.

Nobody can solve these challenges alone. Bay Adapt has been working with partners across the region to integrate and embed Joint Platform actions into existing regional plans and practices. MTC/ABAG's Plan Bay Area 2050, set to be adopted in 2021, now incorporates multiple hazards, including sea level rise. The Estuary Blueprint, a map for regional actions on the health and resilience of Bay ecosystems, is also aligning with Bay Adapt actions. We need everyone to come together to help us collectively create a resilient Bay Area region.

The Joint Platform

9 actions, 21 tasks, 1 region *moving forward together*

PEOPLE

Action 1: Collaborate on a “One Bay” vision to adapt to rising sea levels.

- Task 1.1: Create a long-term regional vision rooted in communities.
- Task 1.2: Lay the foundation for a proactive regional legislative agenda.

Action 2: Elevate communities to lead.

- Task 2.1: Improve how communities and public agencies learn from each other and work together.
- Task 2.2: Fund the participation and leadership of community-based organizations (CBOs) and frontline communities in adaptation planning.

INFORMATION

Action 3: Broaden public understanding of climate change science and impacts.

- Task 3.1: Tell local and regional stories about people and places adapting to climate change.
- Task 3.2: Weave climate literacy into school programs.

Action 4: Base plans and projects on the best science, data, and knowledge.

- Task 4.1: Align research and monitoring with information gaps.
- Task 4.2: Make scientific data, information, and guidance easier to use.
- Task 4.3: Increase access to technical consultants for local adaptation partners.

PLANS

Action 5: Align local and regional plans into a unified adaptation approach.

- Task 5.1: Provide incentives for robust, coordinated adaptation plans.
- Task 5.2: Align state-mandated planning processes around adaptation.

Action 6: Figure out how to fund adaptation.

- Task 6.1: Expand understanding of the financial costs and revenues associated with regional adaptation.
- Task 6.2: Establish a framework for funding plans and projects.
- Task 6.3: Help cities and counties expand ways to fund adaptation planning and projects.

PROJECTS

Action 7: Refine and accelerate regulatory approvals processes.

- Task 7.1: Accelerate permitting for equitable, multi-benefit projects.
- Task 7.2: Tackle environmental regulations and policies that slow down progress on projects.

Action 8: Fund and facilitate faster adaptation projects.

- Task 8.1: Incentivize projects that meet regional guidelines.
- Task 8.2: Encourage collaboration among people doing projects in the same places.
- Task 8.3: Facilitate faster construction of nature-based projects.

PROGRESS

Action 9: Track and report progress to guide future actions.

- Task 9.1: Measure regional progress using metrics and share results.
- Task 9.2: Monitor and learn from pilot projects.

What can you do?

The draft **Joint Platform** is now ready for you! Examine the opportunities it can provide to help us decide what to do next. We're all in this together.

For local leaders

- ☑ Share the Joint Platform with your staff and colleagues **and identify which actions** you'd like support for implementation.
- ☑ **Provide feedback on the Joint Platform** using our [online form](#) or email us at BayAdapt@bcdc.ca.gov
- ☑ Write a **letter of support** for the Bay Adapt Joint Platform to help us advocate for regional implementation.

For the interested public

- ☑ Learn more and provide feedback on the **40-page, easy-to-read Joint Platform**. Where can the Joint Platform help?
- ☑ **Understand your community's vulnerability** by using online tools such as the [ART Shoreline Flood Explorer](#) for exploring risks of flooding in your area
- ☑ **Talk to your community** about resilience and preparing for climate change.

Read the Joint Platform, provide feedback through our online form or email us at BayAdapt@bcdc.ca.gov, and learn more at

www.BayAdapt.org

Leadership Advisory Group

Ana Alvarez, East Bay Regional Parks
Tessa Beach, Ph.D., US Army Corps of Engineers
David Behar, SF Public Utilities Commission/ Bay Area Climate Adaptation Network (BayCAN)
John Bourgeois, Valley Water/ CHARG
Allison Brooks, Bay Area Regional Collaborative
Amanda-Brown Stevens, Greenbelt Alliance
Paul Campos, Building Industry Association
Warner Chabot, San Francisco Estuary Institute
John Coleman, Bay Planning Coalition
Dina El-Tawansy, Caltrans District 4
Tian Feng, BART
Julio Garcia, Environmental Justice Caucus Member
Ms. Margaret Gordon, West Oakland Indicators Project
Terrie Green, Shore Up Marin City
Alicia John-Baptiste, SPUR
Melissa Jones, Bay Area Regional Health Inequities Initiative (BARHII)
David Lewis, Save the Bay
Mark Lubell, UC Davis
Therese McMillan, MTC / ABAG
Mike Mielke, Silicon Valley Leadership Group
Michael Montgomery, SF Regional Water Quality Control Board
Barry Nelson, BCDC
Sheridan Noelani Enomoto, NorCal Resilience Network
David Pine, San Mateo County/ San Francisco Bay Restoration Authority
Erika Powell, US Army Corp
Bruce Riordan, Bay Area Climate Adaptation Network (BayCAN)
Amy Hutzel, State Coastal Conservancy
Caitlin Sweeney, San Francisco Estuary Partnership
Laura Tam, Resources Legacy Fund
Will Travis, Independent Consultant
Zack Wasserman, BCDC
Jim Wunderman, Bay Area Council
