

SolarAPP+ The Emerging US Permitting Solution

SolarAPP+ is a collaborative effort to accelerate rooftop solar adoption by making it easier for local governments to quickly and safely approve standardized rooftop PV projects for installation using NREL's permitting software.

SolarAPP+ is free for AHJs to adopt and is supported by small admin fees paid by installers.

Local Governments and Rooftop Solar Are Allies

Shared Values:

- Safety and quality
- Local resilience
- Economic development
- Environmental goals

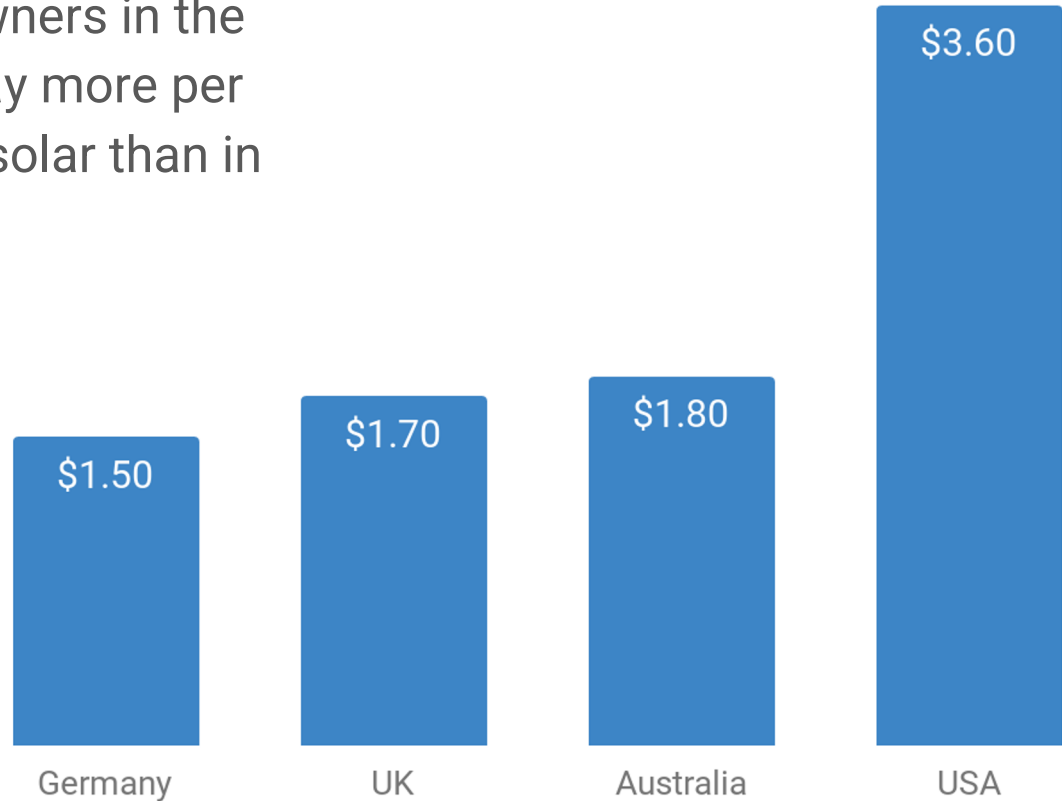

Safe & efficient solar adoption experiences create growth

- Plan review efficiency is difficult due to volume
- Homeowners want certainty
- New, smart home tech is emerging
- Code is always changing

Goal: Determine if SolarAPP+ can help manage solar growth, revised code, and new technologies.

Unfortunately, homeowners in the U.S. wait longer and pay more per watt to install rooftop solar than in any other country.

Rooftop solar is consistent & common

What does SolarAPP do?

SolarAPP provides automated plan review and approval for standardized systems

- Uses yes/no questions & ranges to automate compliance checks
- Catches code issues, typos, and errors; returning corrections instantly
- Tough projects go through typical review. Stale applications require no action
- Produces an inspection checklist replicating permit details for verification

SolarAPP+ Eligibility

SolarAPP+ can cover standardized systems as defined [here](#).

Current Support Parameters

- Residential PV
- Approved equipment
- NEC 2017 / 2018 i-Codes
- Bus <225A
- Service <400A
- PV systems <4PSF
- Single phase utility supply
- No wood shake roofs
- No metal roofs w >15PSF snow load

Support In Progress

- NEC 2020
- Residential storage
- Add-ons for existing systems
- Main panel upgrades

Planned

- EV chargers, electric appliances, roof tiles, and more...

Let us know what you'd like to see next!

SolarAPP+ Flow

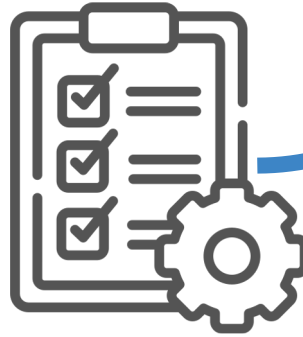

Installer submits an application with design specifications through SolarAPP

1

2

SolarAPP checks the application to ensure the system design is code compliant

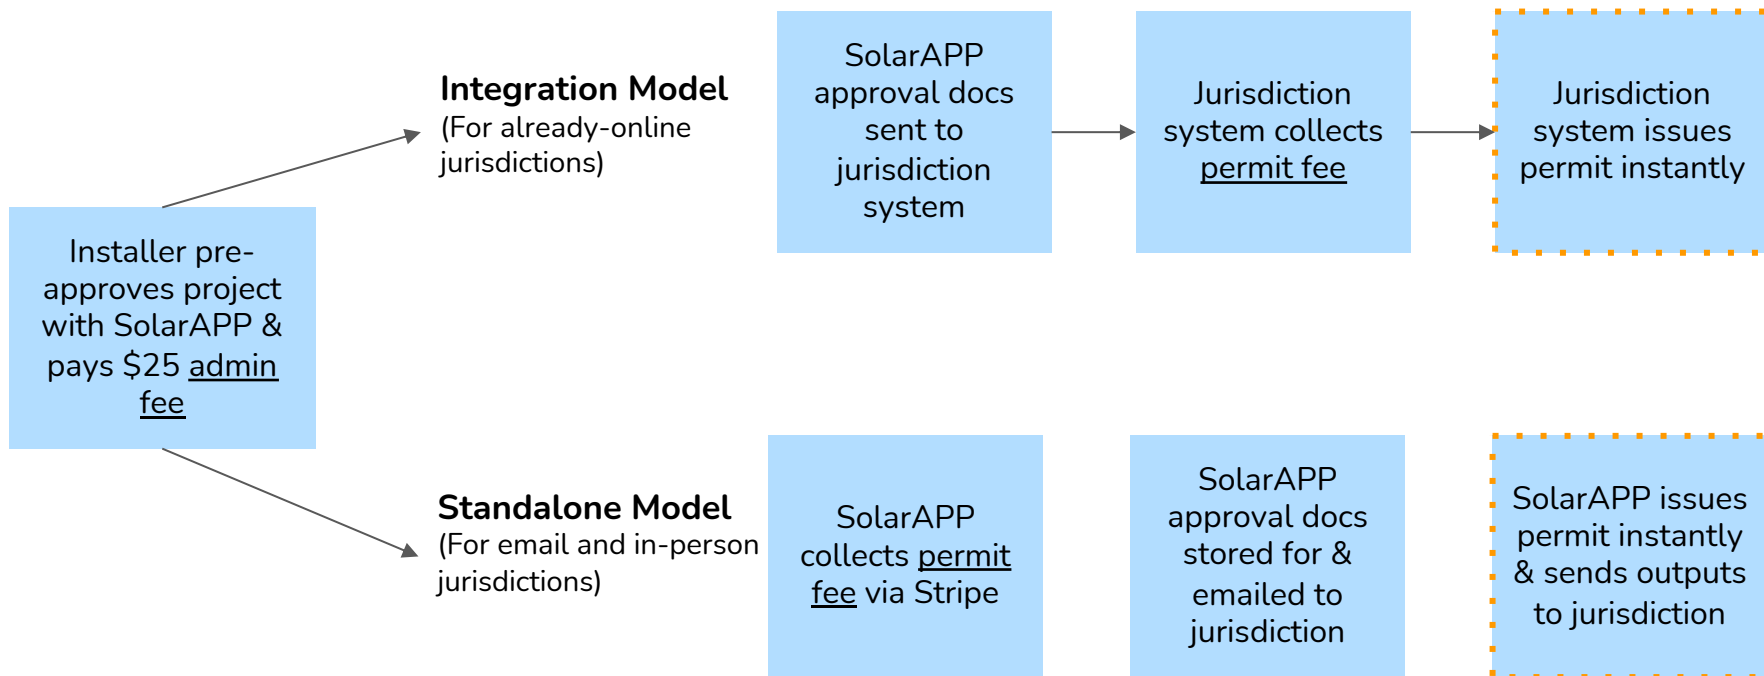

3

Code compliant applications are issued a permit instantly after fee payment

([Review sample approval docs here](#))
