

Preventing Wildfires Through Good Housing Policy

California fires over 10 years: See 170-plus areas where blazes repeatedly ignited

By [YOOHYUN JUNG](#) | Sept. 21, 2021 4:00 a.m.

We've built places where the most convenient way to get around is the private automobile

We've made it harder and harder to build in existing neighborhoods.

People search for more affordable housing options at the edge of the region.

...in places that make them vulnerable to hazards such as wildfires.

Paradise Community Village

1001 Village Parkway

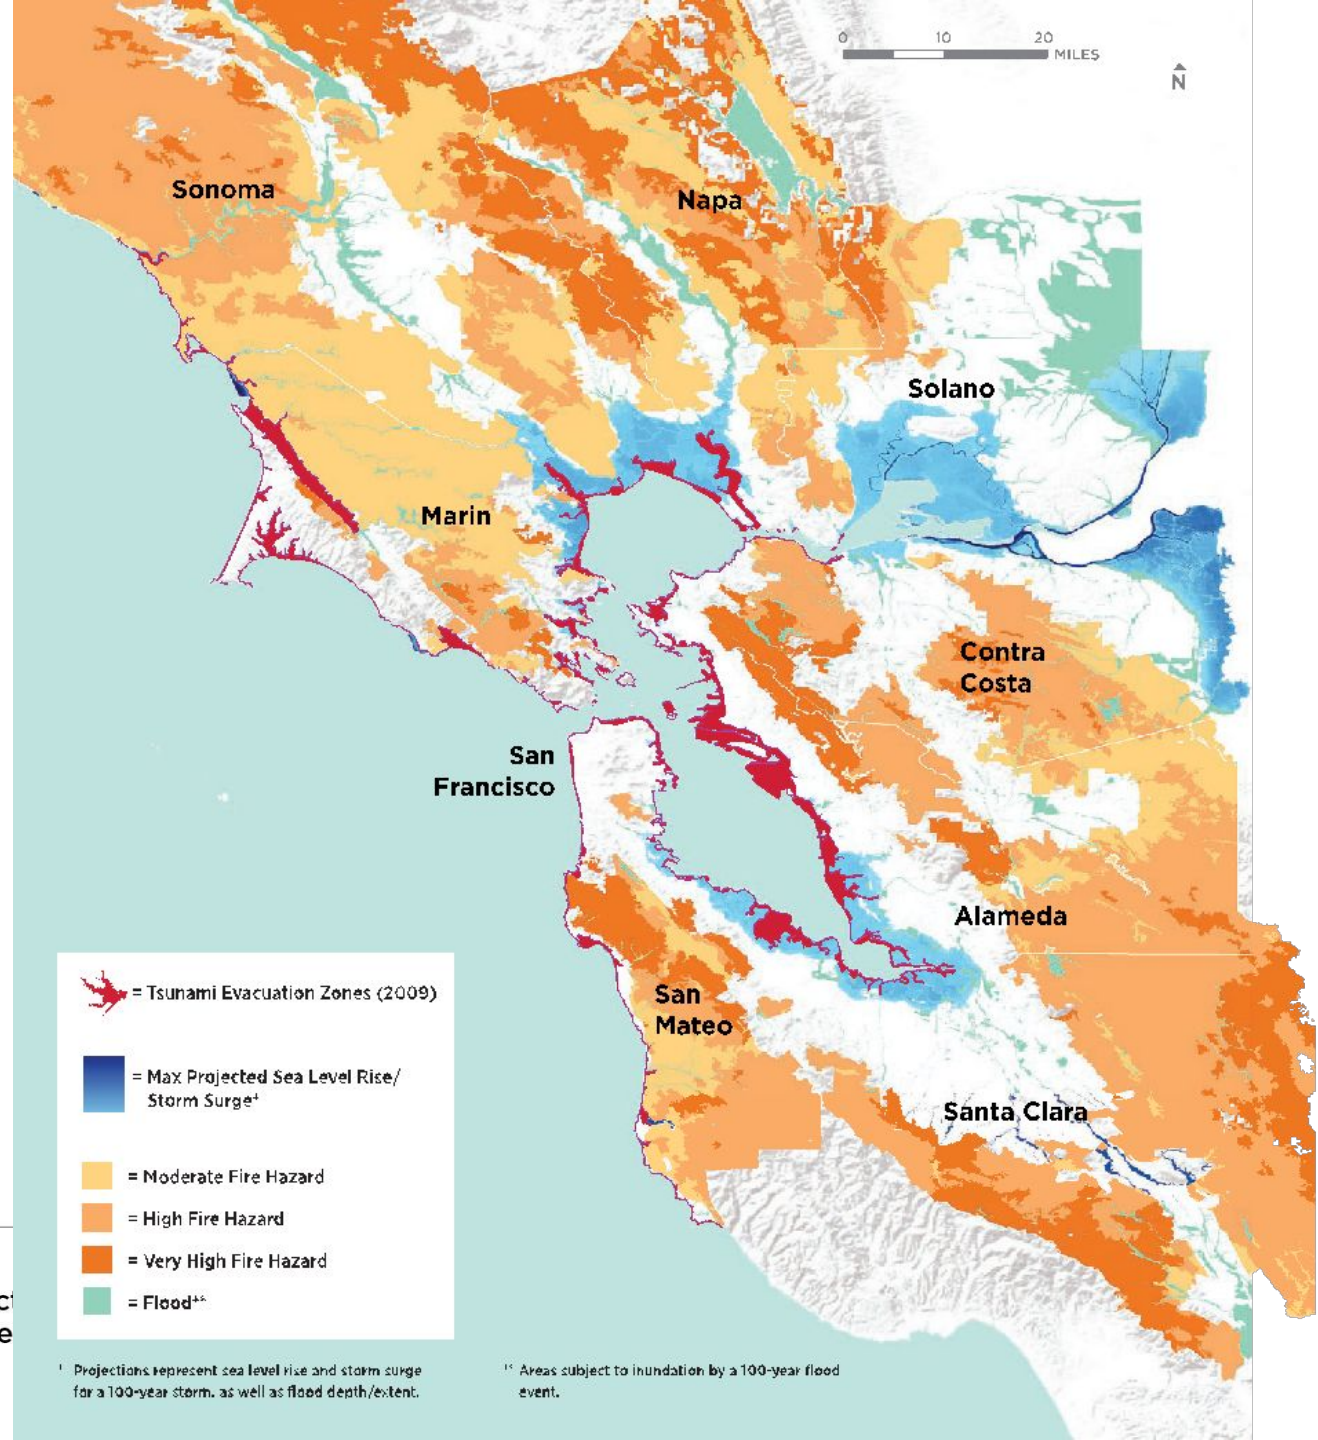

530-872-1210

Climate impacts, including wildfires, are more severe for low-income communities and communities of color

Our region faces multiple threats from fires, flooding and sea level rise

Ideas + Action
for a Better Bay Area

¹ Projections represent sea level rise and storm surge for a 100-year storm, as well as flood depth/extent.

¹⁵ Areas subject to inundation by a 100-year flood event.

But we can define where growth can grow to help us build in a safer, more environmentally sound and equitable manner.
