00:29:07 Ramakrishnan Subramanian: Can you help us understand, why we need these Propositions, when we have various Senate Bills which as such allow for streamlining for 100% Affordable Projects?

00:32:11 Amy Farah Weiss: On Prop D/E: I've talked w/ both sides, watched debates, researched...it seems that if Mayor had been willing to change 2019 leg AMI to "avg 120%" (~\$3,700 rent/month/2 people) as opposed to "up to 140%" (~\$4,300/rent month/2 people) it could have passed BoS. Simple changes can unite.

00:34:50 Jackson Nutt-Beers / SPUR: We want to hear from you! Please submit any questions you have for our panelists using the Q&A function at the bottom of your screen!

00:45:39 Amy Farah Weiss: Thanks for speaking to AMI—I was concerned that Prop D could be calling all 140% AMI affordable, when that is \$4,300 rent for two people, which doesn't seem affordable. 120% AMI seems more in the realm of actual affordability.

00:59:33 Amy Farah Weiss: Thanks for clarification about safeguards—I have heard some misinformation/confusion about that.

01:09:04 Sujata Srivastava - SPUR (she/her): Please check out SPUR's voter guide for more info on state and local ballot measures!
