

00:19:28 Sally Keane: Where are the rest of the candidates? Thanks

00:31:49 Jessica Peyton / SPUR Public Programs: Hi Sally, thank you for joining us. SPUR chose to include 5 candidates today to allow for enough time for their full responses in our 90 minute virtual format. This was a challenging trade off given such a large candidate pool. We used metrics collected as of August 2022 regarding candidate's campaigns to select the 5 candidates that are with us today.

00:48:05 Tim Courtney: Councilmember Reid mentioned declaring gun violence a public health emergency. Oakland's streets are deadly due to excessive speeding and reckless driving, especially to people not even in cars--walking and cycling. Which candidates will declare traffic violence and unsafe street design a public health emergency, and what measures will you take to solve this crisis with urgency? See the Oaklandside's series of reports on this issue.

01:06:14 Ronak Davé Okoye: Under state law, every city must regularly update their housing plan, known as their Housing Element. To meet its legal obligations, Oakland must plan for more than 26,000 new homes to be built between 2023 and 2030. What zoning, development standards, and approval practices in Oakland should be changed to spur creation of - and attract more - affordable housing for people of all incomes?

01:27:29 Howard Matis: I just came back from New York. All the roads were smooth and safe to drive. Oakland's streets are a disaster. As a cyclist, I have been injured several times because of the pot-holed streets. Currently, it appears never will the streets be repaired. How will you fix the streets?

01:28:24 Heather Coleman: Can hosts turn off the chat? It's distracting.

01:37:30 Sarah Jones: I really wish we could have also heard from Tyron Jordan tonight as well.

01:37:52 Sarah Jones: A progressive voice would have been valuable.

01:38:43 Sally Keane: Agreed. These people have been on City Council... some new voices would have been good.
