

00:11:28 Sherry Zhu / SPUR: Become a SPUR member today! Learn more about our membership here: spur.org/join

00:12:01 Sherry Zhu / SPUR: Join us for tomorrow's digital discourse, Bold New Rules to Deliver Transit-Oriented Communities! <https://www.spur.org/events/2022-11-02/bold-new-rules-deliver-transit-oriented-communities>

00:32:50 Sherry Zhu / SPUR: Have any questions about the presentation so far? Feel free to drop them in the Q&A box so we can get to them during the discussion later!

00:53:42 Eva Schoenholz: thanks so much for all of these thoughts and input! in Alameda we have a unique challenge of rising groundwater and flooding causing tree root inundation. tricky to find natives that like these conditions so im excited to see what innovative solutions we come up with!

00:54:55 Jessica Peyton / SPUR Public Programs: BART San Francisco Station Entrances & Escalators Canopy Progress Report <https://www.bart.gov/about/planning/sfentrances>

00:55:05 Jessica Peyton / SPUR Public Programs: ^Here are some resources to check out!

01:01:21 Bette McDonnell: Public and exclusive member-only walks & events hosted by Nature in the City <http://natureinthecity.org/events-calendar>

01:03:00 Laura Castellini: If there were resources posted besides from Jessica, I can't see them!

01:03:37 Susan Karasoff CNPS-YB: San Francisco Estuary Institute (SFEI) developed Making Nature's City: A Science-based Framework for Building Urban Biodiversity, which summarizes the key indicators supporting urban biodiversity. The reports is available for free on SFEI's website in English and Spanish.

SFEI's key urban biodiversity success indicators include
Native Vegetation

Connections/Green corridors

Patch size

Special Resources - Water/Aquifers/Reservoirs, Large Trees

Management - Vegetation, Soil, Invasive Plants, Infrastructure and Land
