Do you have a parking spot you're not using in your...

Hi neighbors! My friend will be driving from SoCal to San Francisco looking for a safe parking spot for 2-3 days. If you have a parking spot that you'll be willing to rent, please let me know!

Dates estimated will be from March 20th-23rd (arriving 20th and leaving 23rd)

We probably won't be driving the car once we drop it off.

Thank you!

Hi neighbors,

Does anyone have a parking space I can borrow? I'm still commuting to the hospital, and trying to be productive with my time and limit my exposure outside. If I can rent your space for a week or month, even better. Thanks!

Hello fellow residents!

I'm expecting a new child soon, and plan to buy a second car for all the parenting duties we'll need to attend to. We only have one parking spot though, and parking on the street is really tough around here. Does anyone have a parking space they are not using, and are willing to rent to me?

So, please let me know your spot number and what the price would be. I'm not sure how to pay, but I could give you a check, or figure something else out I hope.

Thanks!
Jenna
