00:43:30 Pacita Rudder | SPUR: Thanks for joining us today!

😊 A quick reminder that questions should be submitted through the Q&A panel and we will answer as many as we can towards the end of the session. The chat is available for folks to share their thoughts and engage with other attendees.

00:55:05 Naila Sharmeen: Paris is a beautiful city, been there on 2015.

00:55:16 Eric Eidlin | SJDOT | Santa Clara St. Team: "mineral" = we'd say "concrete" / hardscaped in the U.S.

01:01:29 Becca Tabor: The emphasis on the tree canopy is great!

01:04:26 Pacita Rudder | SPUR: Have a question about what's been discussed so far? Make sure to submit it through the Q&A panel and we'll get to it towards the end of the session!

01:11:53 Eric Eidlin | SJDOT | Santa Clara St. Team: Important to note on this question that there is also an extensive subway and commuter rail (RER) network underground, including directly underneath the street. So this reduces the need for bus lanes a bit. Though not entirely of course.

01:13:17 Naila Sharmeen: Is that BART network Eric?

01:14:04 Ramses Madou, City of San Jose: Eric is talking about the network in Paris.

01:14:11 Eric Eidlin | SJDOT | Santa Clara St. Team: I meant in Paris. In Paris, its the subway (le metro) and the suburban trains (RER). The RER is more similar to BART.

01:16:25 Naila Sharmeen: Oh okay ya I used both.

01:29:19 Jordan Moldow: Eric: Would be great if we too had signal priority for our light rail and buses, in DTSJ and other key transit corridors.

01:29:22 Pacita Rudder | SPUR: Thank you for joining us! We look forward to seeing you at the next SPUR program!
